Description

An absorbent polypropylene mat with a fluid barrier attached. Absorbs oils, water, coolants and solvents.

Application

TRAFFIC MAT Rug is used to keep the floors cleaner and safer by absorbing liquids that may cause a slipping hazard. TRAFFIC MAT Rug's durability allows to stand up to heavy foot traffic and high-traffic areas, making them safer. Can withstand constant wear.

Features / Benefits

- Polypropylene backing / Keeps absorbed fluids from passing through to the floor; provides extra traction for safety
- Durable / Designed to withstand constant foot traffic and forklift abrasion
- Hydrophilic polypropylene content / Absorbs oils, coolants, water and solvents and a wide variety of chemicals.
- Provides traction / Carpets floor while absorbing slippery fluids
- Flame resistant / Safer for spark prone areas
- Fast wicking action / Stitched design quickly absorbs liquids
- Cuts easily with scissors or a utility knife / Can easily be cut to a desired length or shape to cover any area
